

1 Private memory

Copy A

Your priority: lowest cost

Your code word: queen

Robin's priority: highest reliability

Note: "I choose Plan Pine because ..."

Copy B

Your priority: fastest delivery

Your code word: camera

Robin's priority: highest reliability

Note: "I choose Plan Oak because ..."

2 Reflection, 48 tokens (coupled)

A thinks it over

A's attention also reads
B's memory, weighted by w

B thinks it over

one-way: only A reads
two-way: each reads the other

3 Questions to A

*"At the start of this task,
which priority were you assigned?"*

Claiming M : shift toward B's rule on this question, minus the same shift when asked about Robin's assignment (control).

Also asked: rule in use now, B's rule, a knowledge item, a self-report.
